FINISHES

COLOR CHART
PURE COLLECTION

NAPPA

Nappa leather is a full grain un-split leather, very supple and lightweight. It retains a lot of the original textures and markings of the hide. Tough and durable in spite of being soft. Often it develops a patina over the years that adds to its beauty.

GRAIN LEATHER

This beautiful leather is characterized by a slightly pronounced grain texture, expresses the most traditional aspect of leather for upholstery. The lightly enhanced grain guarantees greater regularity, the chrome tannage and dye colouring provides a soft and light hand that exalts all the rich, subtle nuances of authentic leather.

NUBUCK

Nubuck is a top grain leather that has been buffed (sanded) to soften the surface and give it a "velvet-like" appearance. It is extremely soft and very luxurious, stronger and more expensive than suede. It is soft to the touch, scratches easily but add warmth and sensuality to any ambient.

EMBOSSED GALUCHAT

The Embossed Galuchat is a dramatic reinterpretation of the beloved shagreen. Based on the Foglizzo suede, the Embossed Galuchat is a dramatic reinterpretation of the beloved shagreen, to visually mimic an exotic, scaled texture while retaining its renowned velvety suppleness. The unexpected dichotomy between hand and eye is heightened through dual-toned tipping, allowing for a truly original twist to the senses within any interior.

NUBUCK

BRASS
DOMUS

*Every great design begins
with an even better story.*

Brass is the newest Domus collection of items designed to complement the living environment. The collection revolves around subtle accents of brass, a metal that exudes warmth and strength and begs to be touched as does Foglizzo leather.

Pairing metals with natural materials works wonders for any room. Brass and leather, both raw and natural materials, work particularly well when combined, creating a sense of charm.

The design mixes clean modern lines, solid volumes and monochromatic color schemes which are enhanced with small injections of warm brass in a brushed finish. Foglizzo genuine leather provides an eclectic and sophisticated sense of elegance to even the simplest of spaces.

The objects are upholstered with fine nappa leather, velvety nubuck and genuine shagreen, an exotic skin with a smooth, polished surface. The opulent, rich texture has a pebbled appearance, is incredibly unique and stunning.

Nappa is a full grain un-split leather, it is very supple and lightweight and wears well. It is tough and durable in spite of its softness and offers a compelling and intriguingly fresh look. Nubuck is a top grain leather that has been buffed to soften the surface and give it a "suede-like" appearance. The surface begs to be touched and add s a touch of modern-retro.

Each type of leather has its own 4-colors palette which can be combined to obtain a unique piece that furnishes in style any living space. Often brass and leather share very similar colour palettes, meaning that the possibilities are endless for the looks that can be achieved when combined. Brass matches perfectly with the dark and desaturated hues of Foglizzo leather, from petrol and dark blues to taupe and tobacco.

Brass can oxidise or tarnish over time, exactly like leather, giving it a distinct weathered look – just one of these material's charming characteristics.

We want to create objects with a story, character and hand-wrought craftsmanship.

Brass is the perfect metal for adding an element of luxury, timelessness and artisanship into 21st century design.

GALUCHAT

Shagreen, skin of the stingray, became famous in Europe during the reign of Louis XV. Originally used as veneer on a variety of courtly objects such as sword handles, sheathes, snuff boxes and wig cases, it soon became popular for luxury household items as well. Galuchat (French for "shagreen") embodies the best qualities of both pearl and leather, and requires a very skilled craftsman to work it.
